

Understanding and Evaluating Health Research

A Workshop for Community Advisory Board Members

Community Advisory Boards (CAB's) help make sure that research done at Johns Hopkins University and other academic institutions is relevant and beneficial to patients, families, and local residents.

The Johns Hopkins Institute for Clinical and Translational Research's Community Engagement Core is hosting a free workshop that will describe how to understand and evaluate health research.

Who Should Attend

Individuals currently serving on advisory boards for Johns Hopkins research centers, institutes, or research projects

Workshop Goals

- Increase CAB members' knowledge of health research and the role of CABs in research
- Introduce ethical principles used to protect people involved in research
- Describe how to use knowledge of community and ethics to evaluate research

Workshop Topics and Speakers

- "Research 101": John Groopman, PhD, Professor, Johns Hopkins Bloomberg School of Public Health
- "Research Ethics 101": Nancy Kass, ScD, Professor, Johns Hopkins Berman Institute of Bioethics
- "Research Review 101": Barbara Bates Hopkins, Community Engagement Coordinator, Johns Hopkins Bloomberg School of Public Health

Thursday, October 10, 2013, 4pm-8pm (light dinner served)

Johns Hopkins University

Miller Research Building, Room G-01

733 N. Broadway Street, Baltimore, MD 21205

Pre-registration is required. To register go to: www.surveymonkey.com/s/CABWORKSHOP
