

The Nuts and Bolts of Community Based Participatory Research

The Community Engagement Program of the Johns Hopkins Institute for Clinical and Translational Research will co-host with the School of Nursing a free workshop on the Nuts and Bolts of Community Based Participatory Research, an approach that involves meaningful collaboration with community stakeholders throughout the entire research process.

Who Should Attend

Faculty, staff, students, staff, community members, advisory groups, and representatives from community-based organizations.

Workshop Goals

1. Introduce community based participatory research (CBPR) definitions and characteristics.
2. Present case examples that illustrate how CBPR principles are put into action
3. To illustrate key issues related to starting a CBPR project
4. To listen and learn how community members view CBPR

Date/Time/Location

Friday, April 11, 2014; 9:00AM-2:00PM

Johns Hopkins School of Nursing

525 N. Wolfe Street, Room 9, Baltimore, MD 21205

There is NO COST for attendees; however space is limited and pre-registration is required

To register go to:
