WHO SHOULD ATTEND

Investigators conducting funded patient-centered, community, or stakeholder engaged research; and their partners (patients, community advisory boards, stakeholders)

FORUM

- Learn about stakeholder engaged research conducted at Johns Hopkins
- Identify how to engage stakeholders the entire grant writing and research process
- Describe strategies to measure the impact of stakeholder engagement on research
- Recommend resources that the ICTR can offer to support stakeholder engaged research

The recommendations discussed at the forum will be included in the ICTR renewal application and reports shared with academic, community, and stakeholder groups.
