Research Participant Satisfaction

Current Results from the July 2018 Survey

Research Participant Satisfaction Survey

- In July 2018, the Institute of Clinical and Translational Research randomly selected participants from the Clinical Research Management Services list to receive a survey by email if they were involved in a research study at Johns Hopkins within the last 6 months
- Currently, 135 participants responded

Overall Experience in Research Study

Would you recommend joining a research study to your family and friends?

Importance of Reasons for Joining Study

Preparation for Study

Did the informed consent form prepare you for what to expect during the study?

Did the information and discussions you had before participating in the research study prepare you for your experience in the study?

Satisfaction with Research Team

Satisfaction with Research Process

Reasons for leaving a research study

Reasons for staying in a research study

Things that would be important for participants in a future study
