Clinical Trials: Survey Data of Minority Populations

July 2017
National Public Opinion Survey
Clinical Trials: Survey Data of Minority Populations

The nationwide Clinical Trials survey of adults was conducted online in July 2017 by Zogby Analytics for Research!America. Sample sizes and theoretical sampling errors are as follows:

- African-American: sample size, 406; margin of error, +/- 4.9%
- Asian: sample size, 304; margin of error, +/- 5.6%
- Hispanic: sample size, 406; margin of error, +/- 4.9%
- Non-Hispanic White: sample size, 638; margin of error, +/- 3.1%

*Due to rounding, the total may not add to 100 on some slides.*

Lack of Trust Less of a Barrier to Clinical Trial Participation

Fewer than 10% of Americans participate in clinical trials. Which of the following do you think is a reason that individuals don’t participate in clinical trials? (percentage saying lack of trust)

Strong Majority Have Not Participated in a Clinical Trial

Have you or someone in your family ever participated in a clinical trial?

7% increase among African-Americans who said ‘yes’ from 2013.

- **African-American**
  - Yes: 22%
  - No: 65%
  - Not Sure: 13%

- **Hispanic**
  - Yes: 19%
  - No: 72%
  - Not Sure: 9%

- **Non-Hispanic White**
  - Yes: 15%
  - No: 79%
  - Not Sure: 6%

- **Asian**
  - Yes: 13%
  - No: 83%
  - Not Sure: 4%

If your doctor found a clinical trial for you and recommended you join, how likely would you be to participate in a clinical trial?

- **Hispanic**
  - Very Likely: 40%
  - Somewhat Likely: 41%
  - Not Likely: 8%
  - Would Not Participate: 4%
  - Not Sure: 7%

- **Non-Hispanic White**
  - Very Likely: 39%
  - Somewhat Likely: 46%
  - Not Likely: 4%
  - Would Not Participate: 10%

- **African-American**
  - Very Likely: 34%
  - Somewhat Likely: 40%
  - Not Likely: 10%
  - Would Not Participate: 4%
  - Not Sure: 12%

- **Asian**
  - Very Likely: 23%
  - Somewhat Likely: 50%
  - Not Likely: 14%
  - Would Not Participate: 4%
  - Not Sure: 10%
Fewer than 10% of Americans participate in clinical trials. Which of the following do you think is a reason that individuals don’t participate in clinical trials? (percentage saying not aware/lack of information)

Lack of Information Still a Major Barrier to Clinical Trial Participation

Doctors Have Greatest Responsibility in Educating Public about Clinical Trials

Which organizations listed below would you say have the greatest responsibility in educating the public about clinical trials? (percentage saying doctors and other healthcare providers)

9% increase among African-Americans who said ‘doctors and other healthcare providers’ from 2013.

Which of the following do you think is a reliable source for clinical trial information? (percentage saying doctors and other healthcare providers)

- **Non-Hispanic White**: 66%
- **African-American**: 62%
- **Hispanic**: 57%
- **Asian**: 56%

Strong Majority Say Doctor Hasn’t Talked to Them about Medical Research

Has your doctor or other healthcare professional ever talked to you about medical research?

- **Hispanic**: 27% Yes, 67% No, 7% Not Sure
- **Asian**: 25% Yes, 68% No, 8% Not Sure
- **African-American**: 24% Yes, 68% No, 8% Not Sure
- **Non-Hispanic White**: 15% Yes, 80% No, 5% Not Sure

Do you agree or disagree that health care professionals should discuss clinical trials with patients diagnosed with a disease as part of their standard of care?

Strong Majority Willing to Share Personal Health Data to Improve Patient Care

For the following, please indicate your willingness to share your personal health information, assuming that appropriate privacy protections are in place — So health care providers can improve patient care

12% increase among non-Hispanic whites who said 'yes' from 2013.

- **Non-Hispanic White**: 85% Yes, 7% No, 8% Not Sure
- **Hispanic**: 78% Yes, 12% No, 10% Not Sure
- **African-American**: 75% Yes, 14% No, 12% Not Sure
- **Asian**: 74% Yes, 11% No, 15% Not Sure

Strong Majority Willing to Share Personal Health Data to Advance Medical Research

For the following, please indicate your willingness to share your personal health information, assuming that appropriate privacy protections are in place — To advance medical research.

- **Hispanic**
  - Yes: 83%
  - No: 9%
  - Not Sure: 7%

- **Non-Hispanic White**
  - Yes: 82%
  - No: 8%
  - Not Sure: 11%

- **African-American**
  - Yes: 78%
  - No: 12%
  - Not Sure: 10%

- **Asian**
  - Yes: 76%
  - No: 10%
  - Not Sure: 14%

For the following, please indicate your willingness to share your personal health information, assuming that appropriate privacy protections are in place — so public health officials can better track disease and disability and the causes.

Majority Likely to Use Technology to Share Personal Data

How likely are you to use technology such as apps, phones and monitoring devices to share your personal health data for clinical research?

- **Very Likely**
- **Somewhat Likely**
- **Not Likely**
- **Would Not Participate**
- **Not Sure**

**Hispanic**
- 46% Very Likely
- 29% Somewhat Likely
- 10% Not Likely
- 7% Would Not Participate
- 9% Not Sure

**African-American**
- 38% Very Likely
- 31% Somewhat Likely
- 13% Not Likely
- 8% Would Not Participate
- 13% Not Sure

**Non-Hispanic White**
- 35% Very Likely
- 35% Somewhat Likely
- 11% Not Likely
- 6% Would Not Participate
- 13% Not Sure

**Asian**
- 29% Very Likely
- 39% Somewhat Likely
- 15% Not Likely
- 7% Would Not Participate
- 11% Not Sure

Many Prefer to Have Clinical Trial Data Delivered through Phone

If you participated in a clinical trial, would you prefer to have clinical trial information/data/results delivered through your phone?

- **Hispanic**
  - Yes: 58%
  - No: 26%
  - Not Sure: 16%

- **African-American**
  - Yes: 53%
  - No: 31%
  - Not Sure: 16%

- **Asian**
  - Yes: 50%
  - No: 35%
  - Not Sure: 15%

- **Non-Hispanic White**
  - Yes: 39%
  - No: 41%
  - Not Sure: 20%

Many Hear of Clinical Trials on Internet

How did you hear about clinical trials? (percentage saying online/Internet)

16% increase among Hispanics who said ‘online/internet’ from 2013.

Opportunity to Improve Others’ Health Important Factor in Clinical Trial Participation

How important would each of the following factors be in your decision to participate as a volunteer in a clinical trial — Opportunity to improve the health of others

<table>

Strong Majority Say Understanding Risks, Benefits Very Important

How important would each of the following factors be in your decision to participate as a volunteer in a clinical trial — Understanding potential risks and benefits

- Non-Hispanic White: 80% Very Important, 12% Somewhat Important, 5% Not Too Important
- African-American: 70% Very Important, 19% Somewhat Important, 4% Not Too Important
- Hispanic: 65% Very Important, 25% Somewhat Important, 6% Not Too Important
- Asian: 64% Very Important, 24% Somewhat Important, 5% Not Too Important

How important would each of the following factors be in your decision to participate as a volunteer in a clinical trial — Competence and reputation of people or the institution conducting the research?

How important would each of the following factors be in your decision to participate as a volunteer in a clinical trial — Having an expert guide you through the clinical trials process

- Non-Hispanic White: 63% Very Important, 27% Somewhat Important, 4% Not Too Important, 5% Not at All Important, 6% Not Sure
- African-American: 62% Very Important, 22% Somewhat Important, 7% Not Too Important, 3% Not at All Important, 6% Not Sure
- Hispanic: 56% Very Important, 33% Somewhat Important, 6% Not Too Important, 4% Not at All Important, 6% Not Sure
- Asian: 54% Very Important, 31% Somewhat Important, 6% Not Too Important, 6% Not at All Important, 6% Not Sure

Plurality of Minority Groups Say Patients Are Sometimes Included in Trials Without Being Told

Would you say that without being told, patients are sometimes included in clinical trials when they are receiving medical treatment?

9% increase among African-Americans and 8% increase among Hispanics who said ‘yes’ from 2013.

Clinical Trial Participation Should Be Routine Behavior

Do you agree or disagree that clinical trial participation should be a routine health behavior, whether you are healthy or ill, similar to getting an annual checkup with your health care provider?

- **Hispanic**
  - Strongly Agree: 27%
  - Somewhat Agree: 29%
  - Somewhat Disagree: 23%
  - Strongly Disagree: 13%
  - Not Sure: 9%

- **African-American**
  - Strongly Agree: 23%
  - Somewhat Agree: 25%
  - Somewhat Disagree: 20%
  - Strongly Disagree: 16%
  - Not Sure: 16%

- **Asian**
  - Strongly Agree: 19%
  - Somewhat Agree: 32%
  - Somewhat Disagree: 22%
  - Strongly Disagree: 11%
  - Not Sure: 16%

- **Non-Hispanic White**
  - Strongly Agree: 13%
  - Somewhat Agree: 25%
  - Somewhat Disagree: 24%
  - Strongly Disagree: 18%
  - Not Sure: 20%

About Half Admire Clinical Trial Participants ‘A Great Deal’

Please rate how much you admire each of the following groups of people on a scale of 1 to 4, where 1 means you do not admire them at all, and where 4 means you admire them a great deal — People who volunteer for clinical trials

13% increase among non-Hispanic whites and 10% increase among Hispanics who said ‘a great deal’ from 2013.

Opinions Split on Medical Progress

Do you believe we are making enough progress in medical research in the U.S.?

13% increase among African-Americans, 11% increase among Hispanics, and 7% increase among Asians who said ‘no’ from 2013.

Opinions Split on Whether Health Care Is Based on Best Research

Do you believe that the health care services you receive are based on the best and most recent research available?

18% increase among African-Americans, 14% increase among Hispanics, 8% increase among Asians, and 7% increase among non-Hispanic whites who said ‘no’ from 2013.

African-American

- Yes: 35%
- No: 46%
- Not Sure: 20%

Non-Hispanic White

- Yes: 40%
- No: 40%
- Not Sure: 20%

Hispanic

- Yes: 40%
- No: 45%
- Not Sure: 16%

Asian

- Yes: 41%
- No: 38%
- Not Sure: 21%
