

IN 1990, DR. FRANCIS S. COLLINS
LED THE TEAM THAT
DISCOVERED
THE NF1 GENE.

NOW IT'S YOUR TURN
TO JOIN THE TEAM THAT DISCOVERS
THE CURE.

THE FRANCIS S. COLLINS SCHOLARS PROGRAM
IN NEUROFIBROMATOSIS IS SEEKING HIGHLY
TALENTED CANDIDATES IN THE LAST STAGES OF
POST-DOCTORAL TRAINING OR FIRST SEVEN
YEARS OF FACULTY APPOINTMENT.

Scholars chosen for this 2-3 year program will receive:

- High-level exposure and formal training in clinical translational science
- Mentoring by a leader in the field
- Clinical training for the care of patients with NF1
- Full Salary Support
- Stipends for Research Costs
- Tuition for Relevant Coursework

Apply today, and help revolutionize
the field of NF1 research!

Visit www.n-tap.org for more
information and to apply.

Applications due by March 15,
2019 for the term beginning July 1,
2019.
