

Role of the Office:

The Navigators with the ICTR “Ask an ICTR Navigator” service are available to help direct faculty, staff, and students to needed ICTR and JHU research resources and services, and can advise as to “next steps” in the clinical and translational research enterprise at Johns Hopkins.

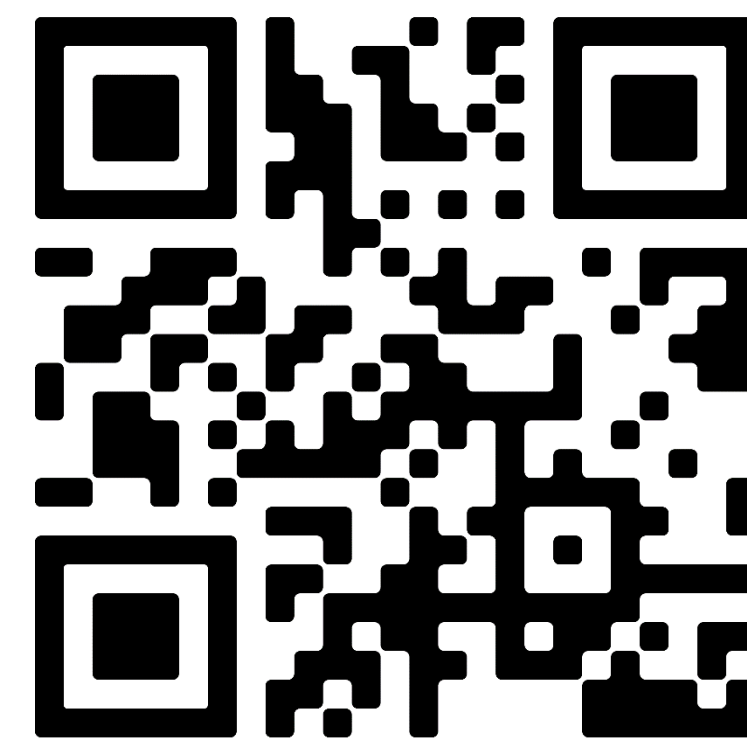

“Ask an ICTR Navigator” also includes:

Integrating Special Populations (ISP)

- Program to link investigators with key special populations
- Pediatrics, Geriatrics, Genetic/Rare Diseases, Underserved Minorities, Acute Care/Trauma (UMB)
- Faculty experts (Population Liaisons) available for consultation

“Ask an ICTR Navigator” Service
